## CONTEXT

## TECHNICAL EVALUATION

Great first touch, great ball control, great dribbler (1v1, 1v2), Good shooting skills, good passer. Technically speaking, he stands out of the U16 league in Hungary.

## MENTALITY

Great at build-up play under pressure, can easily go through 1-2 opposing players with a simple trick, and start the attack from behind. Confident, plays with joy, communicates with the teammates.

## TACTICAL EVALUATION

Good off the ball movement, moves to empty spaces quickly, is good at decisions. Needs to improve his defensive skills and moves.

## PHYSICAL ATTRIBUTES

Fast player with great acceleration and agility. However, strength and stamina are not his strengths. Can be defeated in duels, Not sure if he can keep his level for 90 minutes.

## SUMMARY & RECOMMENDATION

Fast player with outstanding technique, great at creating chances and finishing as well. Hard to stop him without fouling him. While he's technically advanced, there are ways to improve his defensive work and strength. Highly recommended for further scouting, the player has a good potential to keep on improving.

## ABILITIES & POTENTIAL

<b>Current Ability:</b>	Technically and tactically better than U16 level, could be tried at higher levels. Needs to improve physically
<b>Potential Ability:</b>	Could reach NB I level if stamina and strength are improved.
