Transfermarkt		Match observed:	Nyíregyháza - FTC 1-1
SofaScore		Competition:	NB I, Round 8
MLSZ Adatbank		Date:	2026. 09. 20. 19:30
TECHNICAL EVALUATION		MENTALITY	
A technically accomplished player with refined execution. Demonstrates strong dribbling, first touch, passing and shooting ability, while appearing comfortable using either foot. Remains composed in finishing situations.		A brave and determined player who generally remains composed and creative under pressure. Demonstrates a strong work ethic and maintains a high level of application until fatigue begins to affect his intensity.	
TACTICAL EVALUATION		PHYSICAL ATTRIBUTES	
Displays strong defensive awareness, disciplined positioning and generally sound decision-making. Presses consistently while on the pitch, reads passing lanes effectively and frequently regains possession through interceptions and recoveries.		Possesses adequate pace and acceleration, complemented by very good agility. However, limited strength and endurance currently restrict his ability to sustain high-intensity performance throughout a full 90 minutes.	
SUMMARY & RECOMMENDATION		ABILITIES & POTENTIAL	
High-potential player performing strongly in Hungary. His technical quality and tactical understanding appear suitable for a higher level, although his physical profile requires further development. Recommendation: Shortlist for further scouting.		Current Ability:	Developing NB I First Team - Rotation player
		Potential Ability:	Potential to compete at a higher European level
